What is the Data Story and its Actionable Next Steps

Anecdotal Story
Put a human face to your dilemma, keep it rooted in a compelling story.

Data Insights
What insights from your data lead to an actionable solution.

Actionable Solutions
What next steps or actions would you recommend based on your data nuggets.

Data Hackathon Deliverable
With visuals or slides, craft a story that give insights into your dilemma and then provide actionable next steps. Your presentation must be clear, concise, and less than 5 minutes.
